PRICE LIST FORMAT

- A. Sheet Numbering - Sheet numbers appear in the heading of each sheet. Sheets are numbered sequentially. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers appear in the upper right corner of each sheet. These numbers are used to determine the most current version of the sheet. For example, the 4th revised Sheet 14 cancels the 3rd Revised Sheet 14. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence - Each level of paragraph numbering is subservient to its next higher level as shown:
- 2.0
 - 2.1
 - 2.1.1
 - 2.1.1.A.
 - 2.1.1.A.i.
- D. Check Sheets - When a Price List sheet is revised, the Check Sheet is updated. The Check Sheet lists the sheets contained in the Price List with a cross-reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision and those sheets affected are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc., remains the same, just revised revision levels on some sheets). The Price List user should refer to the latest Check Sheet to find if a particular sheet is the most current.

3.0 LONG DISTANCE TERMS AND CONDITIONS

3.1 Charges for Service and Billing Increments

- A. Minutes of use (MOU) under each Rate Plan are calculated by adding the chargeable minutes for each separate message. MOU are billed in 6-second increments, with a 30-second minimum per message (6-second minimum for Dedicated Long Distance, Section 4.3). Charges are computed according to one of the Company's rate plans. Under each rate plan charges per minute of use vary depending on the usage level committed to by the Customer and the length of the commitment to use the Company as the Customer's presubscribed long distance carrier. Chargeable minutes are based on the duration of network use.

3.2 Customer Commitment

- A. Each Customer must commit (in writing) to a volume level and a term during which the Customer will use the Company as its presubscribed long distance carrier. If the Customer has not notified the Company of Customer's intentions with regard to renewal, the Company will enroll the Customer in the same rate plan and commitment levels (volume and term) thereunder initially chosen by the customer, unless the volume level has been changed pursuant to Section C., below; if so, that changed volume level will be used as the commitment level under the renewal.
- B. Customers who terminate prior to term commitment are required to pay early termination charges as specified in Section 2.19 of this Price List. The usage rates listed with the Company's various long distance rate plans, described herein, are discounted off the Company's Domestic Long Distance Base Rate of \$0.10 per minute.
- C. After the first month a Customer has used the service of the Company, or at any time thereafter, the Company or Customer may review Customer's usage levels. If the Customer's usage is below or above the usage level committed to by the Customer, the Company may notify the Customer that the rate per MOU will be changed for the next month's and subsequent months' billings for the remainder of Customer's commitment period or until the company's next periodic review of Customer's usage levels.

3.3 Computation of Charges

- A. Charges are computed according to one of the company's rate plans. When the MOU multiplied by the per-minute rate of the call does not equal an even billing amount, the call will be rounded up to the next full penny (example, \$2.743 would be rounded to \$2.75). Certain calling plans require a minimum \$0.01 charge per call.

4.8.4 International Calling Miscellaneous Charges

A. International Mobile Termination Surcharge

Due to higher costs imposed by overseas telecommunications carriers, a surcharge of \$3.50 will be applied to all international calls that terminate to wireless devices.

4.8.5 International Toll Free Service (ITFS)

- A. This is a called-party-pays international long distance service. Customers can request country-specific toll-free number assignments which will deliver international calls to their Eschelon service address(es).
- B. Policies, timeframes and dialing patterns may change at the discretion of foreign telecommunications administrators.
- C. The Company does not guarantee the completion of calls that originate from mobile and/or payphone phones. Individual countries may require additional forms for mobile and/or payphone phone originations. Foreign telecommunications administrators may impose separate surcharges on mobile and/or payphone phone originations and terminations.

4.0 ESCHELON LONG DISTANCE SERVICES, Continued

4.9 Toll Free Services

Toll Free Service allows callers to reach Eschelon Customers without incurring toll charges. Usage charges are based on the Customer's Eschelon long distance program.

4.9.1 Toll Free Service Features

Area Code Blocking

The ability of the telephone equipment to selectively deny calls to specific (but not all) area codes.

Area Code Routing

Provides the Customer the ability to route calls to a predetermined location based on the originating area code. Calls may be routed to a maximum of 15 different numbers.

Percent Allocation

This allows the Customer to allocate up to 10 terminating numbers. Calls will be allocated by percentages.

Time of Day/Day of Year Routing

This feature allows a customer to route a toll free number to different terminating numbers based on the time of day and/or day of the year. For example, calls to the toll free number can be routed to the Customer's corporate office from 8 a.m. to 5 p.m. and then to a nationwide call center from 5:01 p.m. to 7:59 a.m.

Area code/Exchange Routing

Provides the Customer the ability to route or prevent the completion of toll free call based on NPA-NXX.

Toll Free Directory Assistance Listing

Provides a listing for directory providers for callers seeking toll free numbers.
