

BUSINESS CONNECT

Dynamic, Integrated Voice, Data & Internet Solutions

Special promotional pricing available for a limited time only!

Integra Telecom's Business Connect Bundles combine our most popular voice, data & Internet services into comprehensive, cost-effective packages.

Choose from our Business Connect Ethernet or Dynamic T1 bundles, providing 1.5 Mbps up to 30 Mbps of **symmetrical upstream and downstream bandwidth** – dynamically allocated to manage your day-to-day voice needs as well as your data-intensive requirements. Business Connect is a perfect solution for companies with an ever-increasing need for Internet access driven by business-critical applications, like cloud-based software use, remote worker VPN access, data backups, and more.

With a host of included voice and Internet service features as well as simple upgrade options, Integra's **Business Connect** solutions offer higher convenience and productivity – all at a low, fixed monthly price. Additionally, Integra's industry-leading Service Level Agreement on Internet access will give you peace of mind.
