

BUSINESS PHONE SYSTEMS

COMMUNICATIONS SIMPLIFIED

In today's ever-changing world of telecommunications, businesses are looking for a trusted partner who can help guide them through the myriad of evolving technologies. Integra Telecom combines the industry's premier telecommunications equipment with a full suite of traditional and Internet network services. This unique combination of equipment and service provides an end-to-end solution designed to help your business run more efficiently.

Whether you need the latest in IP Telephony Solutions or a basic phone system, Integra will help you through the entire process, from selection and installation to training and on-going support.

BUSINESS COMMUNICATIONS SYSTEMS

In order to address the wide range of business requirements for our customers, Integra Telecom represents two industry leading manufacturers - Mitel and NEC. Each of these companies was selected for their award-winning technology, reputation for support and commitment to past and future technology.

WHY INTEGRA? IT'S SIMPLE.

- » Single source provider for network services and equipment
- » Green friendly products & solutions
- » Dedicated project management team
- » Guaranteed response time & parts availability
- » Extensive installation and training experience
- » 5-year parts warranty on all new systems

CALL 1-866-INTEGRA FOR A CONSULTATION TODAY!

TECHNOLOGIES ON THE MOVE

Business of all sizes are discovering how these solutions are becoming the norm and increasingly more cost effective and easy to use. Let Integra customize a solution that will lower operating costs and increase productivity by providing security, mobility and reduced liability while improving customer service.
