

# CONFERENCE CALLING

CONFERENCE NOW

>> **Start saving time and travel expenses by using Integra's Conference Now**

Conference Now is a reliable, on-demand conferencing service. Whether you need to hold a conference call once a year or once a month, Integra Telecom can equip you with a flexible, easy-to-use conferencing service.

Once your service is activated, you can hold a conference anywhere, anytime from a touch-tone phone without making a reservation.

## FEATURES

Each subscription will provide you with a permanent, toll-free access number, 7-digit access code and a secure passcode. The following features are optional and can be used with any conference at no additional charge:

- >> **Lock your conference** to prevent new participants from joining
- >> **Mute Lines** to have a private conference with select participants
- >> **Allow conference to continue** after chairperson disconnects
- >> **Count the number of participants** on your call
- >> **Assign additional passcodes** for high profile calls
- >> **24x7 Operator Access** for technical support

### The WebConnect Interface

**EASILY VIEW ALL PARTICIPANTS**

**AUDIO CONFERENCING CONTROLS**

**INSTANT MESSAGING ENABLED**

**ABILITY TO PRESENT A VARIETY OF FILE FORMATS IN REAL-TIME (pngs, jpegs, bmps & gifs)**

**DRAWING TOOLS FOR REAL-TIME EDITING**

The screenshot shows the 'Chairperson Conference Controls' window. It includes a participant list with columns for Name, Mute, and Number. Below the list are 'Conference Management' options like Dial, Disconnect, and Play Name. There are also 'Audio Conferencing Controls' such as Mute All, Unmute All, and Operator. A chat window at the bottom shows messages from the Chairperson and other participants. The main content area displays 'Products / Services' with a list of various services like Local, Long Distance, and Network/System Monitoring. At the bottom, there are drawing tools for real-time editing and a 'Slide Show' button.
