Integra™

BUSINESS CONTINUITY SOLUTIONS
ENSURING 24X7 ACCESS FOR HEALTHCARE PROVIDERS

Healthcare Solutions

Healthcare providers must be ready to treat every patient they receive. To do so, they need mission-critical applications operational and corresponding data available. Their patients demand it.

Integra recognizes business continuity planning is crucial to quality patient care. Medical treatment centers cannot tolerate downtime. In any other organization, downtime costs money. For healthcare providers, downtime can slow diagnosis, limit treatment options or it can literally mean life or death. Healthcare providers demand cost effective, reliable business continuity and disaster recovery solutions.

Integra knows how to build a business continuity solution that will accommodate bandwidth-hungry applications and secure sensitive patient data. With the region's most robust fiber network, cutting edge Cloud Firewall Service, and a full suite of carrier-class services, we empower your facility's business continuity requirements.

BUSINESS BENEFITS

+ **Diversely routed and fully redundant fiber** backbone ensures low latency and reliable connectivity to geographically distributed location.

+ **Robust voice services** offer call re-routes to alternate phone numbers at back up sites.

+ **Integra carrier-class Internet service** provides secure access to cloud based recovery solutions.

Integra understands patients must still be treated even in the face of a network outage, equipment failure, or natural disaster. We deliver comprehensive and cost-effective business continuity solutions to keep your operation connected.

Integra is your partner in business continuity planning. With our extensive experience and full menu of carrier class services, we work with you to find the right solution. We are capable of accommodating a complex business continuity and disaster recovery plan and nimble enough to craft innovative, cost effective solutions.

Flexible Solutions

A complete solution requires options. Healthcare providers can tailor their business continuity plan from a menu of secure, reliable services. Trust Integra to help you make the choices that best fit your needs.

- **Ethernet Services** – Integra's most advanced product line delivers stable connectivity to businesses that rely on high-bandwidth cloud based applications.

- **IP/MPLS VPN Solutions** – Connect all of your users with a secure, reliable network solution.

- **SIP Trunking** – Integra's SIP Trunking service combines voice and data over a single connection, eliminating the expense of separate networks.

- **High Speed Internet** – Rely on our fully redundant network for dedicated internet access.

- **Cloud Firewall Service** – Next-generation service delivers advanced protection against Internet threats to your mission critical applications.

- **Colocation** – Integra provides carrier-class colocation services, protecting your mission critical equipment in a secure network-rich environment.

Whether you are large hospital complex, or a cooperative of small medical clinics, we offer flexible solutions able to secure your network and communications service.
